AI models need to go through a systematic "education" process

a. 'Multimodal Textbook' by collecting over 2.5 years' worth of educational videos (about 22,000 hours!) covering subjects like math, physics, chemistry, and engineering.
b. Improved LLMs/VLMs' **understanding** and **reasoning** capabilities.
c. Think of it like the **difference** between learning from **random YouTube clips** versus learning from **a carefully structured course** with a good teacher.
